Presentation and visibility are the key words when selling ice cream in the consumer market. Most customers make their final purchase decision on the point of sales. Therefore it is important, that the customers notice your ice cream freezer.

With the Elcold Scoop ice cream program, you are offered the possibility to create your own ice cream freezer solution to match your needs and optimize your promotion. You can combine our Nova freezer with the Elcold canopies (Sneezeguards).

Wired basket for scooping with room for 3 containers in one direction and 1 container in the other direction- making a total of 4 containers.

Wired basket for scooping with room for 4 containers in one direction and 1 container in the other direction- making a total of 5 containers.

The baskets are designed for 5 liter plastic containers with a dimension of 342*154*130 mm.
